

Letter of Intent

Good Afternoon,

I am looking to rezone my property from Ag to SC-R1 to bring my current property into compliance. At the same time I am also looking for a CUP to build a detached storage shop for my boat, RV, Tractor, and classic cars in the size of 1600 sq ft which is just smaller than my dwelling on the property. None of the grading will change as the building will be built at current grade. We are requesting waiver of the 30 day notification to alderperson as we were just informed as of 7/6/2020 of what we needed to do to bring everything into compliance. We have been in coordination with Jacob M from zoning and have been playing phone tag for weeks with little communication. Appreciate any help you can offer and look forward to working with you.

Tony Adams

A handwritten signature in black ink, consisting of a large, stylized 'A' followed by a long, sweeping horizontal line that tapers to the right.
