Q1

When you want to schedule a meeting with city staff or an outside individual(s) (example: developer) do you:

Ask Council staff to schedule,

Other (please specify):

Occasionally I set up meetings myself, for example if meeting with a developer or constituent on a weekend and not in council office, but in general I prefer staff assistance to help me track issues and commitments. With COVID, its more about setting up phone meetings since I am not adept at setting up zoom meetings. I think the council should get a zoom license and then staff could help set up those meetings, I would be willing to get training to be host. For meetings with city staff, I still like council staff to assist because I find that sometimes city staff don't think about my schedule as much as theirs or they want me to offer times and follow up which is a recipe for failure if you are me :) .
