

To,

The Members of City Council,
Madison, Wisconsin

To Whom It May Concern,

I have owned and worked at my company (Marvin's Brick Pavers) for over 20 years . Now, I have the opportunity to own a new property (5098 Voges, Rd), and my plans are to construct a nice building where I can place my office. I also plan to have my equipment located in that same property, to have better protection and access to it. It would also be very helpful to have a display area, due to our line of work (hardscape designs).

Therefore, I humbly request your permission to be able to construct this building, and since I have also requested the demolition of the house that is currently there.

Thank you for your time.

Sincerely,
Marvin Martínez
