To the Traffic Calming Subcommittee,

I fully support your work on developing better processes for implementing traffic calming throughout the City. In my work as Transportation and Safety Chair for the Tenney-Lapham Neighborhood Association, the current block-by-block approach for traffic calming in the Neighborhood Traffic Management Program has been a stumbling block for implementing neighborhood-wide and Near East Side-wide traffic calming.

For example, efforts to protect the East Mifflin Bike Boulevard and to implement traffic calming around it don't work when we have to work block by block. A comprehensive approach is required for enhancing these city-wide resources.

thanks again for your work on this important matter.

best, Bob Klebba
