The intent of this Letter is to request an Exception pertaining to the crossing of architectural detail of new business signage on the building canopy located at the business address stated below. The proposed signage will maintain the integrity of the building and pose no safety concern to street traffic.

The signage crosses the building's architectural detail and extends into the 36" depth from canopy to facade by 2" due to the length of the business name.

Signage is made up of one set of 24" and 17" formed aluminum channel letters with white acrylic faces illuminated with white LEDs mounted on an aluminum raceway.

Dimension Detail

- Building awning length is 34.75 ft. long. Awning depth is 36".
- Signage lettering is 24" high (tallest) x 2" wide x 28.75' wide. Signage will be flush to edge of canopy. (Please reference images provided.)
- Signage width reaches beyond architectural building detail due to length of business name.

Details related to the Business and Signage parties are shown below:
