RE: Consideration of a conditional use in the Industrial–Limited (IL) District for a personal indoor storage facility at 9801 Silicon Prairie Parkway (Silicon Prairie Storage, LLC) (LNDUSE-2020-00125; ID 62762).

Dear Ms. Vaughn;

On December 14, 2020, the Plan Commission found the standards met and **approved** your conditional use request for 9801 Silicon Prairie Parkway. Prior to issuance of building permits for the project, the conditions of approval in the following sections shall be satisfied:

Please contact Tim Troester of the City Engineering Division at (608) 267-1995 if you have questions regarding the following fourteen (14) items:

1. Obtain a permit to Excavate in the Right-of-Way for completing the improvements in the public right of way. As a condition of the permit, a deposit to cover estimated City expenses will be required.
2. Madison Metropolitan Sewerage District (MMSD) charges are due and payable prior to Engineering sign-off, unless otherwise collected with a Developer's/ Subdivision Contract. Contact Mark Moder (261-9250) to obtain the final MMSD billing a minimum of two (2) working days prior to requesting City Engineering signoff.
3. Obtain a permit to Excavate in the Right-of-Way and within the public storm sewer easement for the connection and/or installation of utilities required to serve this project and shall comply with all the conditions of the permit.
4. An Erosion Control Permit is required for this project.
5. A Storm Water Management Report and Storm Water Management Permit is required for this project.
6. A Storm Water Maintenance Agreement (SWMA) is required for this project.
7. This site appears to disturb over one (1) acre of land and requires a permit from the Wisconsin Department of Natural Resources (WDNR) for stormwater management and erosion control. The City

of Madison has been required by the WDNR to review projects for compliance with NR-216 and NR-151; however, a separate permit submittal is still required to the WDNR for this work. The City of Madison cannot issue our permit until concurrence is obtained from the WDNR via their NOI or WRAPP permit process. Contact Eric Rortvedt at 273-5612 of the WDNR to discuss this requirement. The applicant is notified that the City of Madison is an approved agent of the Department of Safety and Professional Services (DSPS) and no separate submittal to this agency or Capital Area Regional Planning Commission (CARPC) is required for this project to proceed.

8. Revise the site plan to show all existing public sanitary sewer facilities in the project area as well as the size, invert elevation, and alignment of the proposed service.
9. This project will disturb 20,000 square feet or more of land area and require an Erosion Control Plan. Please submit an 11" x 17" copy of an erosion control plan (pdf electronic copy preferred) to Megan Eberhardt (west) at meberhardt@cityofmadison.com, or Daniel Olivares (east) at daolivares@cityofmadison.com, for approval.
10. The applicant shall demonstrate compliance with Sections 37.07 and 37.08 of Madison General Ordinances regarding permissible soil loss rates. The erosion control plan shall include Universal Soil Loss Equation (USLE) computations for the construction period. Measures shall be implemented in order to maintain a soil loss rate below 5.0 tons per acre per year.
11. Complete weekly self-inspection of the erosion control practices and post these inspections to the City of Madison website as required by MGO Chapter 37.
12. Prior to approval, this project shall comply with Chapter 37 of Madison General Ordinances regarding stormwater management. Specifically, this development is required to submit a Storm Water Management Permit application, associated permit fee, Stormwater Management Plan, and Storm Water Management Report to City Engineering. The Stormwater Management Permit application can be found on City Engineering's website. The Storm Water Management Plan and Report shall include compliance with the following:

Submit prior to plan sign-off, a stormwater management report stamped by a PE registered in the State of Wisconsin.

Provide electronic copies of any stormwater management modeling or data files including SLAMM, RECARGA, TR-55, HYDROCAD, Sediment loading calculations, or any other electronic modeling or data files. If calculations are done by hand or are not available electronically, the hand copies or printed output shall be scanned to a PDF file and provided to City Engineering.

Detain the 2-, 10-, 100-, and 200-year storm events, matching post development rates to predevelopment rates and using the design storms identified in Madison General Ordinances Chapter 37.

Provide infiltration of 90% of the pre-development infiltration volume.

Reduce TSS by 80% (control the 5-micron particle) off of newly developed areas compared to no controls.

Submit a draft Stormwater Management Maintenance Agreement (SWMA) for review and approval that covers inspection and maintenance requirements for any best management practices (BMP) used to meet stormwater management requirements on this project.

13. Submit, prior to plan sign-off but after all revisions have been completed, a digital CAD file (single file) to the Engineering Division that is to scale and represents final construction with any private storm and sanitary sewer utilities.
14. Submit, prior to plan sign-off but after all revisions have been completed, digital PDF files to the Engineering Division. Email PDF file transmissions are preferred to: bstanley@cityofmadison.com (East) or ttroester@cityofmadison.com (West).

Please contact Jeff Quamme of the City Engineering–Mapping Section at (608) 266-4097 if you have any questions regarding the following two (2) items:

15. The proposed new building crosses an underlying platted lot line and also proposes a lot line adjustment. Submit a Certified Survey Map (CSM) to the Planning Division to dissolve underlying lot lines to comply with fire codes, City ordinances, and City policies. The CSM shall be approved by the City, recorded with the Dane County Register of Deeds and new tax parcel information available prior to issuance of a building permit or an early start permit.
16. The address of the proposed building is 304 Yard Drive. The site plan shall reflect a proper street address of the property as reflected by official City of Madison Assessor's and Engineering Division records.

Please contact Sean Malloy of the Traffic Engineering Division at (608) 266-5987 if you have any questions regarding the following ten (10) items:

17. The applicant shall submit one contiguous plan showing proposed conditions and one contiguous plan showing existing conditions for approval. The plan drawing shall be scaled to 1" = 20' and include the following, when applicable: existing and proposed property lines; parcel addresses; all easements; pavement markings; signing; building placement; items in the terrace such as signs, street light poles, hydrants; surface types such as asphalt, concrete, grass, sidewalk; driveway approaches, including those adjacent to and across street from the project lot location; parking stall dimensions, including two (2) feet of vehicle overhang; drive aisle dimensions; semitrailer movement and vehicle routes; dimensions of radii; and percent of slope.
18. The developer shall post a security deposit prior to the start of development. In the event that modifications need to be made to any City-owned and/or maintained traffic signals, street lighting, signing, pavement marking and conduit/handholes, the developer shall reimburse the City for all associated costs including engineering, labor and materials for both temporary and permanent installations.
19. The City Traffic Engineer may require public signing and marking related to the development; the developer shall be financially responsible for such signing and marking.
20. All parking facility design shall conform to the standards in MGO Section 10.08(6).

21. All bicycle parking adjacent pedestrian walkways shall have a two-foot buffer zone to accommodate irregularly parked bicycles and/or bicycle trailers.
22. All pedestrian walkways adjacent parking stalls shall be seven (7) feet wide to accommodate vehicle overhang, signage and impediments to walkway movements. Any request for variance shall be submitted to and reviewed by City Traffic Engineering.
23. The applicant shall provide a clearly defined five-foot walkway clear of all obstructions to assist citizens with disabilities, especially those who use a wheel chair or are visually impaired. Obstructions include but are not limited to tree grates, planters, benches, parked vehicle overhang, signage and doors that swing outward into walkway.
24. The applicant shall show the dimensions for the proposed Class III driveway including the width of the drive entrance, width of the flares, and width of the curb cut.
25. Per MGO Section 10.08 (4)(a)3., a Class III has a maximum permitted entrance width of 30 feet. The applicant shall alter their Yard Drive driveway to 30 feet in width.
26. One-way operation of the site shall be secured by placing a "One Way" sign at the entrance and a "Do Not Enter" sign at the exit.

Please contact Jenny Kirchgatter, Assistant Zoning Administrator, at (608) 266-4429 if you have any questions regarding the following four (4) items:

27. Submit the landscape plan and landscape worksheet stamped by the registered landscape architect. Per Section 28.142(3) Landscape Plan and Design Standards, landscape plans for zoning lots greater than 10,000 square feet in size must be prepared by a registered landscape architect.
28. Provide details demonstrating compliance with bird-safe glass requirements MGO Section 28.129.
29. Per Section 28.186(4)(b), the property owner or operator is required to bring the property into compliance with all elements of the approved site plans by the date established by the Zoning Administrator as part of the site and building plan approval. Work with Zoning staff to establish a final site compliance date.
30. Signage approvals are not granted by the Plan Commission. Signage must be reviewed for compliance with MGO Chapter 31 Sign Codes. Signage permits are issued by the Zoning Section of the Department of Planning and Community and Economic Development.

Please contact Jeff Belshaw of the Madison Water Utility at 261-9835 if you have any questions regarding the following item:

31. A Water Meter Application Form and fees must be submitted before connecting to the existing water lateral. Provide at least two working days' notice between the application submittal and the scheduled lateral connection/extension. Application materials are available on the Water Utility's Plumbers & Contractors website (<http://www.cityofmadison.com/water/plumbers-contractors>), otherwise they

may be obtained from the Water Utility Main Office at 119 E Olin Avenue. A licensed plumber signature is required on all water service applications. For new or replacement services, the property owner or authorized agent is also required to sign the application. If you have questions regarding water service applications, please contact Madison Water Utility at 266-4646.

Specific questions regarding the comments or conditions contained in this letter should be directed to the commenting agency.

Please now follow the procedures listed below for obtaining permits for your project:

1. The applicant shall resubmit a PDF copy of the plan set and any other supporting materials that are necessary, as specified in this letter to Zoning@cityofmadison.com. (Note: A 20MB email limit applies and multiple transmittals may be required.). A check for the site plan review fee shall be mailed to the City of Madison Building Inspection Division; PO Box 2984; Madison, WI 53701-2984.
2. City Agencies who submitted conditions of approval will review your revised plans to verify that their conditions, along with any applicable requirements, have been satisfied. When the revised plans are submitted, the applicant will be emailed a hyperlink to a website to follow, in real time, which agencies have reviewed the revised documents, and signed off or need additional information.
3. This letter shall be signed by the applicant and property owner (if not the applicant) to acknowledge the conditions of approval and returned to the Zoning Administrator when requesting building permit approval. [Signature block on last page]
4. No alteration of this proposal shall be permitted unless approved by the Plan Commission, provided, however, the Zoning Administrator may issue permits for minor alterations. No alteration of a conditional use shall be permitted unless approved by the Plan Commission provided, however, the Zoning Administrator following consideration by the alderperson of the district, may approve minor alterations or additions which are approved by the Director of Planning and Community and Economic Development and are compatible with the concept approved by the Plan Commission and the conditional use standards. This approval shall become null and void one (1) year after the date of the Plan Commission unless the use is commenced, construction is under way, or a valid building permit is issued and construction commenced within six (6) months of the issuance of said building permit. Where the plans have not been altered from the Plan Commission's approval, and the conditional use has expired, the Director of Planning and Community and Economic Development may, after consultation with the Alderperson of the District, approve an extension for up to 24 months from the expiration date. The Plan Commission shall retain jurisdiction over this matter for the purpose of resolving complaints against the approved conditional use permit.

If you have any questions regarding obtaining your building permits, please contact the Zoning Administrator at (608) 266-4551. If you have any questions or if you may be of any further assistance, please do not hesitate to contact my office at (608) 261-9632 or tparks@cityofmadison.com.

Sincerely,

Timothy M Parks

Timothy M. Parks
 Planner
