Hello,

I am strongly in favor of the installation of two proposed speed humps for the 1800 & 2000 blocks of Jenifer St during the upcoming street reconstruction. The 1660 - 2000 blocks of Jenifer get a good amount of traffic speeding through daily and I believe these humps would help alleviate the problem. Some of this traffic is likely generated due to drivers shopping at the Jenifer Street Market. I see this as a neighborhood safety issue, particularly for pedestrians & bicyclists. Please approve these speed humps. Thank you for your consideration.

Larry Jensen
