Hello,

I am writing to express support for the Whitney Way street improvements. I think it's great that the commission was willing to implement safety and access improvements for people outside of cars. I know it's rarely popular to reallocate public space from private vehicle storage to safe spaces for people on bikes or on foot, but I firmly believe it is the right long-term decision. Without a connected, safe, comfortable bicycle and pedestrian transportation network, we can't effectively get people out of cars and into greener, more space-efficient transportation options. Removing parking on Whitney Way is a step in the right direction, both for climate goals and for Vision Zero, and I look forward to a more comfortable ride through that stretch of the road in the future.

Thank you again,
Brent Teske
