What impact do you anticipate your event will have on the residents/businesses in the areas surrounding the park? Consider things such as noise, parking, traffic, etc. What plans do you have to minimize these impacts?

The impact anticipated is an inconvenience to the immediate residents surrounding Garner Park, due to the number of patrons attending. We minimize neighborhood parking inconveniences by having the public park in University Research Park and CUNA. Only disabled parking is allowed on the neighborhood streets, limiting the amount of extraneous traffic. Madison Police are on site directing traffic before and after the event to reduce congestion. Signage is posted during the week prior alerting neighbors to the imminent parking restrictions for the event. The sound is projected toward the Garner Park hillside, away from neighbors to minimize noise annoyance.
