Thank you all for the information.

I appreciate the support for this expansion, and I know the ownership is responsible and has a long commitment to the neighborhood. However, having a beer garden of this size (in the 700's or 800's) represents a significant increase in the number of people (and density) consuming alcohol in the area—at best this has a neutral impact on the area, but the potential for negative issues is real.

I have recently been advised that UW Madison is going to see the largest freshman class ever, and we will be experiencing a post-COVID UWFB season, and it is unknown if this fall will look like previous seasons. If this location generates problems—despite the efforts of ownership who I know will be conscientious—it is going to be another strain on MPD.

Jason
