**Subject:** Upcoming meeting

Alder Syed Abbas, good afternoon. As I doubt I will be able to call in with comments at the meeting regarding the Shopping Center, I'm hoping you can express my concern. The East Washington corridor (isthmus) where the proposed building is to be located used to be marsh and wetlands. It was filled in many years ago. The Yahara River crosses the isthmus. My concern is the stability of the land under which this new building is being built. My house foundation facing First Street collapsed from the shifting ground a couple of years ago and I had to have a whole new foundation put in. Is this site able to withstand a seven story building?

I tried to send my comments in on the web page but it didn't work.

Thank you.

Bernice Day
