New Business

2. [91793](#) Removing "human burial designation" from Orton Park (District 6)

Bailey explained that the State Historic Preservation Office (SHPO) is initiating the process for removing the human burial designation for Orton Park. They have reviewed documentation that all burials were systematically removed in 1877 when the cemetery became a park, and there have been no subsequent inadvertent discoveries of human remains. Bailey said she agreed with SHPO's analysis and believed

that all human remains were removed from this location. Kaliszewski added that this is not something that SHPO does regularly, and they don't move forward without a lot of evidence, so we can be confident that there are no human remains there. The commission had no additional comments to provide to SHPO.

No action was taken.
