Fiscal Note

Funding for an eight week double fill of the Streets Operation Analyst position can be expected to cost a minimum of \$8,736 in salary plus \$4,018 in benefits, for a total minimum cost of \$12,754. The Streets Division plans to recover this amount with future salary savings. A portion of this savings would be generated by the salary differential between the new hire and the current incumbent. This salary difference could save up to \$5,682 in salary and \$2,614 in benefits, for total savings of \$8,296 over the final 19 weeks of 2011. The remaining shortfall would be covered by the management of agency wide salary savings by the Streets Division.
