Body

PREAMBLE

The City has been constructing phased improvements for short term and long term (future) relief from flooding within vulnerable areas of the watershed draining to Willow Creek. The improvements have been completed such that we can now address the flooding that frequently occurs at the University and Highland area. This design service contract shall provide for implementing the next phase of construction in 2007.

BE IT RESOLVED, that the Mayor and City Clerk are hereby authorized to enter into an agreement for Professional Design Services with Mayo Corporation for the University Avenue and Highland Avenue Storm Design Project.
