File #: 56661, **Version:** 1

Title

Request from Friends of Merrill Springs Park to add a Native American Commemorative Plaque in Merrill Springs Park

Body

The Friends of Merrill Spring would like to honor the Native American history of the park by attaching a small brass plaque to the large boulder next to the cistern which visitors pass as they enter the park. It would have the spring's Native American name, **Mąąka' Mąą'fi** , and underneath would be the English interpretation **Medicine Spring** .

Staff recommends approval of the project subject to written confirmation of the name and other information from the Ho-Chunk Nation.
