

Legislation Text

File #: 23139, **Version:** 2

Title

SUBSTITUTE: Accept the recommendation of the East Side Water Supply Citizens Advisory Panel and staff to use an appropriate treatment technology to mitigate volatile organic compounds on site at Unit Well 15. Initiate detailed design following completion of conceptual design. Continue the Public Participation Process, including discussions of treatment technology selection, with the Well 15 Citizens Advisory Panel through Phase 3 - Facility Design.

Body
