Title

Classes in Parks and Day Camps in Parks Pilot Permits extension

Body

Parks staff is requesting the Classes in Parks and Day Camps in Parks permits be approved for another year as pilot permits with an adjustment to the fee structure to include a commercial use fee. These permits were developed during the pandemic to assist local businesses that could not have indoor classes or camps due to PHMDC restrictions. As the Park's Division develops Commercial Use policies and the Qualified Discount Program, we are requesting another year of pilot programs for these two types of activities to better assess how they will align with those initiatives.
