Title

Body

The City of Madison is developing Central Park (the "Park"), an urban park in the East Isthmus Corridor on the near east side. The Park is expected to provide park and recreation facilities to meet the needs of the neighborhood and community, enhance the city's economic development potential, and stimulate renewed focus of the greater Isthmus as an employment center. The Park will interconnect jobs, housing, and recreation and create a signature feature and destination for the city.

The City has received donations of land for the Park but needs to acquire other parcels to facilitate the completion of the Park. One of the parcels identified for acquisition is located at 204 South Ingersoll Street (the "Property") and is owned by Research Products Corporation ("RPC"). RPC has offered to sell the Property to the City for the expansion of the Brearly Square portion of the Park (see attached exhibit). Terms and conditions for the acquisition of the Property have been negotiated between the City and RPC. The purchase price is supported by an appraisal obtained by the Office of Real Estate Services.

NOW, THEREFORE, BE IT RESOLVED that the Common Council hereby authorizes the execution of a Purchase and Sale Agreement (the "Agreement") between the City of Madison (the "Buyer") and Research Products Corporation (the "Seller") for the Seller's property located at 204 South Ingersoll Street (the "Property"), as legally described below and shown on the attached exhibit, for the proposed Central Park, on the following terms and conditions:
