Title

Equity concerns regarding length and frequency of Alcohol License Review Committee meetings.

Body

In our continuing effort to empower and engage stakeholders, there is a concern for equitable access to the committee. For example:

- applicants and speakers who access the Alcohol License Review Committee meetings and use Madison Metro for transportation, leaving some individuals stranded when Madison Metro routes no longer operate at later hours of the evening,
- applicants and speakers who are taking time from their job,
- accumulation of fees from parking ramps for applicants and speakers, and
- any other burdens that applicants and speakers may face because of lengthy meetings.
