Fiscal Note

The Resolution amends the 2011 adopted PCED capital budget to create a new project for the Madison Sustainability Commerce Center, to reallocate to the project \$75,000 in authorized General Obligation borrowing, and to recognize an additional \$300,000 in grant revenues and commensurate expenditure authority. Additionally, the Resolution amends the 2012 PCED capital improvement program to reallocate to the new project \$2M in private fundraising and grant proceeds. These changes have no net impact on City general obligation borrowing expenditures. The \$75K in General Obligation borrowing is TID eligible. Acceptance of the \$300,000 in grant monies requires a City matching component which is already included in budgeted staff salaries and other projects, so no additional expenditure is required.
