Body

DRAFTER'S ANALYSIS: This substitute ordinance modifies the City's smoking ordinance to bring it into conformity with state law. It authorizes the City Attorney to take action where needed to enjoin continued violation of MGO Sec. 23.05. This substitute ordinance also repeals the subsection that permitted smoking in separately ventilated rooms in places of employment. This ordinance also changes the definition of retail tobacco store and tobacco bar to bring it into conformity with the new state law that becomes effective on July 5, 2010. This ordinance also removes the ability to smoke on stage and in all rooms in bed and breakfast establishments, hotels and motels and private clubs to be in conformity with the new state law.

The Common Council of the City of Madison do hereby ordain as follows:

a "Class B" intoxicating liquor license or a Class "B" fermented malt beverages license and that generates 75 percent or more of its gross annual income from the retail sale of tobacco products and accessories.

~~"Separately ventilated" means that the area is ventilated to a standard specified in the state building code, ch. Comm. 64, Wis. Adm. Code, and that the ventilation system for the smoking area is separate and distinct from the ventilation system for the nonsmoking area or areas. The smoking area ventilation system must have negative air pressure to ensure that there is no mixing of air from the smoking area to the nonsmoking areas. Particulate air cleaners or filtration systems are not considered a ventilation system. This definition is effective January 2, 2003."~~
