Body

Whereas the City-County Building Improvements project has significant cash and budget authority for capital

Whereas the General Building Improvements project is for all city buildings and needs to maintain a sufficient budget capacity in order to meet these needs for the entire year; and

Whereas the electrical load of the Madison Municipal Building has increased over time; and

Whereas Facilities Management has made the assessment that there is a critical upgrade to the Madison Municipal Building that needs to be completed immediately that being upgrading the electrical panels at the Madison Municipal Building as these panels are undersized for the current electrical load on the 2nd and 3rd floors; and

Whereas this undersized capacity caused a power-outage of the 3rd floor the week of June 18, 2012; and

Whereas plans and specifications are already developed and ready to bid out.

Now, Therefore, Be It Resolved, to hereby amend the 2012 Capital Budget for the Engineering Division - Facilities Management to increase the budget authority in the General Building Improvements capital project by \$100,000, funded by a transfer of cash from the City-County Building capital project; and
