Fiscal Note

The proposed resolution amends the Stormwater Utility’s 2017 Adopted Capital Budget by appropriating \$1,000,000 of Stormwater Utility general obligation borrowing and \$320,000 of Stormwater Utility reserves for the Starkweather Coagulant Treatment project (10368) for the cost of land acquisition for the project. In the adopted 2017 Capital Improvement Plan (CIP) the Stormwater Utility had planned on the land acquisition occurring in 2018 within the TMDL Compliance capital program; Stormwater Utility’s future CIP will be adjusted accordingly so that the land acquisition cost is not longer reflected 2018 due to the movement to 2017 via this proposed resolution.

This resolution also modifies existing contract #7405 with Brown and Caldwell for design services which is sufficiently funded by existing stormwater utility borrowing within in the Starkewather Coagulant Treatment project for 2017.
