### **Fiscal Note**

The proposed ordinance establishes guidelines for the operation of security cameras at convenience stores and establishes a bail deposit schedule for violation of this ordinance. The are no direct costs for the City associated with the creation of the ordinance. It is not anticipated that there will be many citations. MPD may incur additional expenses to take in video as evidence (i.e., preservation, redaction, open records) in those instances where the cameras help to identify suspects engaged in crimes. However, efficiencies gained in getting the evidence should offset any additional processing costs. No appropriation is required.

Under this ordinance, convenience stores are required to have security cameras that provide an overview of transaction counter and register area, a camera that captures an individual's face as they enter or exit the store and cameras at all fuel areas. The cameras must have an image quality of at least fifty pixels per foot and a recorded resolution of 1280 x 720. Convenience stores are required to record images at a rate of at least fifteen frames per second and store the images captured on the cameras and be capable of duplication. The ordinance further requires a notice be posted at all entrances and exits informing individuals that they are being recorded. The ordinance also establishes a penalty and bail deposits for violations. This ordinance shall be effective six months after adoption. This second substitute corrects a typographical error, clarifies that all other ordinances regarding exterior lighting must be followed and provides clarification regarding the position of the security cameras.
