The proposed ordinance change increases the permit fee for a residential parking permit from \$28 to \$42 annually and increases the fee charged for the issuance of duplicate permits from \$7 to \$11 annually. The amended ordinance will take effect beginning with the purchase of 2018-2019 residential parking permits (August 2018).

In the 2018 budget, the Parking Utility's salary and benefit expenses increased \$395,000 to reflect the cost of the Parking Enforcement Officers (Police employees) enforcing the Residential Parking Permit Program and other time restriction parking regulations. These costs had historically been reflected in the Police Department's budget.

The Parking Utility's 2018 adopted budget includes \$130,000 in residential parking permit revenue and \$85,000 from a transfer from the General Fund to offset a portion of the Parking Enforcement Officer's salaries. It is anticipated the increased fee will generate \$57,000 in additional revenue, bringing the total to \$272,000. The annual expenses of the program are \$540,000.

To fully fund the program by permit revenue, the Parking Utility has estimated the annual permit fee would need to increase to \$105.

The anticipated annual revenue increase of the ordinance change is \$74,000.
