Fiscal Note

The proposed resolution amends the adopted 2019 Stormwater Utility capital budget to accept and appropriate $650,000 of grant funding for stormwater quality improvement projects within the Stormwater Quality System Improvements capital program. The projects funded by these grant awards will remove sediment, phosphorous, and other contaminants from stormwater.

An ultra low dose alum pilot will be supported by $25,000 from Dane County grant award funding and $10,000 from Madison Metropolitan Sewerage District grant award funding.

The East Towne Pond reconstruction project will be supported by $615,000 of Dane County grant award funding.

These grant awards applications and acceptance were authorized by Legistar Files 53943 and 53866 in late 2018; this resolution is amending the 2019 Stormwater Utility Capital Budget to appropriate the funds in the Stormwater Quality System Improvements capital program.
