### ..Fiscal Note

The proposed resolution amends the 2019 Adopted Operating Budget and sets the 2019 rate amounts for the Sewer Utility and Stormwater Utilities.

For the average residential customer of the Sewer Utility, the rate increase is projected to be approximately 6%, or an annual increase of approximately \$19.37. The 2019 Adopted Operating Budget anticipated a 3% increase; the primary drivers of increased rate change are increased payments to the Madison Municipal Sewage District (\$1.8m increase) and adding to the Utility's Contingent Reserve (\$0.4m).

For the average residential customer of the Stormwater Utility, the rate increase is projected to be approximately 10.1%, or an annual increase of approximately \$9.60. The 2019 Adopted Operating Budget anticipated a 4% increase; the primary driver of the increase rate change is adding additional funding to the Utility's Contingent Reserve based on future year debt service projections. The increased debt service projection is attributed to capital expenditures added via amendments to the 2019 Adopted Capital Budget.

Overall, the average residential customer's annual bill for Sewer and Stormwater charges is projected to increase about 6.8% or \$28.97 in 2019.

Revenues and expenses consistent with these charges have been built into the 2019 Operating Budgets of the Sewer Utility and the Stormwater Utility, although some levy-neutral budget adjustments will need to be made (detailed out in the attached pdf).
