**Fiscal Note**

The proposed resolution increases the budget for the Fleet Service Relocation project by \$300,000. The 2019 Adopted Capital Budget includes \$29.2 million for construction of the new Fleet facility at Nakoosa Trail. Based on revised project estimates the total construction cost for the project is \$30.4 million. The increase will be funded by transferring \$300,000 from the Fleet’s vehicle replacement program to the relocation project. The surplus funds are from prior year appropriations and are not needed to stay current on Fleet’s vehicle replacement program. The source of funds for this transfer is GO Borrowing.
