Body

BACKGROUND:

In 2019, the City of Madison joined a cohort of municipalities through the Cities for Financial

Empowerment Fund, Inc, (the CFE Fund), and CityStart, to address the subject of financial empowerment models. The CFE Fund will offer the City technical assistance to create a blueprint for a service model to deliver coordinated financial empowerment services to Madison residents. The CFE Fund invited cohort members to apply and Madison was awarded, additional grant funding to help further develop their financial empowerment objectives while finalizing the blueprint, which is expected to be completed by year-end. The Community Development Division (CDD) will manage these funds over the year and oversee the financial empowerment program or services that emerge.

Subsequently, the City of Madison was awarded \$20,000 to support a planning grant focused on helping summer youth employment providers connect participants with banking opportunities within their program structures. CDD already supports various youth employment programs. These funds will bolster financial education offered to youth participants in collaborating programs. Again, outcomes from this planning grant will be used to identify strengths and needs for ongoing resources within the community.

Madison was awarded; additional implementation grant funding of \$50,000 to help further develop and launch the Summer Jobs connects program, funding to implement the planned program with planning partners that have agreed to work with the City of Madison CDD staff, to work to meet the outcomes required by CFE's summer jobs connect program to offer youth access to banking and financial empowerment education objectives. Funds will be used to support and promote access to banking and financial education provided by partner organizations, which is expected to be completed by year-end.
