The cost of the one-year contract is \$98,215. The Parking Utility 2022 operating budget includes \$200,000 for consulting services and no additional appropriation is required.

The contract also provides for additional consulting work to be performed upon request of the Parking Division as needs arise over the duration of the contract. These costs will be charged to the Parking Division's operating budget, subject to the availability of funds. There are no specific plans for additional consulting in 2022-2023 at this time.
