Fiscal Note

The changes to the fees for sidewalk cafes, basic street vendor licenses, and the introduction of a licensing fee for late night vending are part of a restructuring of the City Street Vendor licensing and monitoring program, which will include both fee changes and the addition of a permanent, part-time Street Vendor Monitor in lieu of the current hourly Monitor. The fee changes are estimated to generate an additional \$14,000 annually, the proceeds of which will be credited to the City's General Fund Revenues. The creation of a permanent, part-time Street Vendor Monitor in the operating budget of the Economic and Development Division will be included in a separate Resolution. It is anticipated that the additional fee revenues in this Ordinance will be sufficient to cover the additional, incremental cost for the permanent, part-time Street Vendor Monitor position.

Title

Amending Sections 9.13(3), 9.13(4)(s), 9.13(4)(t), 9.13(6)(h)3.a., 9.13(6)(i)1.b. 9.13(6)(l)1., and 9.13(6)(n) of the Madison General Ordinances to increase basic street vendor license fees, create a 3-tiered fee structure for sidewalk cafes, and create license fees and site assignment procedures for Late Night food vending.

Body

DRAFTER'S ANALYSIS: This ordinance accomplishes several changes. First, the license fee for a basic street vendor license (required for all street vending city-wide) is raised from \$120 to \$150 for the annual license and from \$50 to \$75 for the monthly license.

Secondly, this amendment creates significant new procedures for Late Night vending. Currently, there are four "Late Night Vending" areas for street vendors to sell food after hours. No special license is required and no vending sites are assigned. This amendment would create a late night license fee of \$350/year for regular sized food carts, and \$125/year for small push carts, in addition to the basic annual license. The amendment establishes assigned sites in the Frances Street vending area for small push carts, and assigned sites for regular sized food carts in the 700 block of State Street (Library Mall). These sites would be assigned by seniority, using the date the vendor first obtained a basic City street vendor license, minus any demerit points. Late Night Vending in the 300-400 blocks of Frances Street and Library Mall would be permitted only in assigned sites, and vending from vehicles, trailers or carts parked in the street or anywhere else would be prohibited in those two areas. Licensed Mall/Concourse food vendors on Library Mall would have first priority to use their daytime site for Late Night Vending, with the purchase of a Late Night License. The closing hours for daytime vending on Library Mall would be changed to 8 p.m. to allow Late Night Vendors to set up. The 300 block of Frances Street is being added to the Frances Street late night area in order to regulate vending on that block after 9 p.m. Vending in the other two "Late Night" areas (Broom St. and Johnson St.) would remain the same - first come, first served basis with no assigned sites. Vending from vehicles or trailers in the street would continue to be allowed in the Broom and Johnson Street areas. This amendment also makes it clear that certain cart specifications, such as maximum size, apply to late night food carts and food vendors city-wide. The ordinance clarifies that all food vending carts, in the absence of another rule, must fit within a 10'x12' footprint.

This ordinance amendment would also create a 3-tiered fee schedule for sidewalk cafes. Currently, the license fee is \$300 for any sidewalk café. Under this amendment, the fee would depend on the size of the café, based on the maximum number of chairs permitted within the approved café enclosure. The 3-tiered fee would apply to sidewalk cafes in the State Street Mall/Capitol Concourse area, and city-wide.

For individual applicants, the name on the late night application and the basic street vendor license used for seniority must be the same. If the late night license applicant is a business organization, the basic street vendor license used for seniority must be in the name of an officer, member, partner, or the sole proprietor of the business. If more than one applicant was issued a

basic license on the same date, the time of issuance will determine seniority. If the time is not available, seniority will be determined alphabetically using the last name on the basic street vendor license.

Applicants shall list three (3) site preferences on the application. The vendor with the most seniority (minus any demerit points) will be assigned his/her first preferred site, the next vendor assigned to his/her first available preferred site, and so on; until all applicants have been assigned a late night site or until the sites are full. If applicants remain after all sites are filled, a waiting list will be created, using the same seniority system. Late applicants and vendors who forfeit their Late Night assignment will be placed at the bottom of the waiting list. Any site that becomes available after initial site assignments have been made shall be offered to the highest-ranking vendor on the waiting list.

5. Demerit Points for Late Night License Applications. One (1) year of seniority will be subtracted for each demerit point described below:

One (1) demerit point will be assessed for any violation of Sec. 9.13, the Regulations adopted thereto, or any other violation listed in Sec. 9.13(8)(a) (except for serious health code violations described below). A violation counts as a demerit point if charged in a citation or civil or criminal complaint with a date of violation in the previous vending season.
 - b. Serious Health Code Violations: Five (5) demerit points will be assessed if the applicant's food and drink permit has been suspended or revoked for seven (7) or more consecutive days during the previous vending season, or if the applicant's vending cart or mobile base kitchen has been ordered by the public health department to suspend or cease all operations for seven (7) or more consecutive days during the previous vending season.
 - c. For purposes of sec. 9.13(6)(n)5.a. and b., violations issued to the person named on the basic street vending license, the holder of the mobile cart license(s), if applicable, and the person or business listed as the applicant for the Late Night Vending license will all be counted.
 - d. If an applicant's vending license has ever been suspended or revoked under Sec. 9.13 (8), the number of days the license was been suspended or revoked shall be subtracted from the total number of days counted for seniority. Suspensions or revocations against the person named on the basic street vending license and the person or business applying for the late night vending license shall be counted.
6. Late Night Vending License Fees. Late Night Vending licenses are issued per food vending cart or stand, valid from April 15 to April 14, with the following fees:
 - a. Small push-carts that can be moved by hand, of a size and construction that does not meet the definition of "vehicle" under Wis. Stat. sec. 340.01(74) (2007-2008) and that fit entirely within a footprint of 4 feet by 8 feet: \$125/ annual.
