Fiscal Note

The Parking Utility will utilize a current, hourly employee to temporarily occupy the position, so the net additional cost to the Parking Utility for the double-fill is approximately \$551 biweekly for salary expense, plus estimated benefit expense of \$165, or a total additional biweekly expense of \$716. The full duration of the double-fill is unknown, but the Parking Utility has sufficient resources and will manage its budget to accommodate the additional expense.

Title

WHEREAS, Parking Analyst Joanne Easland has requested a Leave of Absence from Parking Utility and it is necessary to double-fill her position until such time as she is able to return to work; and

WHEREAS, the double-fill of the Parking Analyst position may be for a period of more than forty-five (45) days; and

WHEREAS, funding for the double-fill position of Parking Analyst is available in the Parking Utility Department 2010 operating budget,
