Fiscal Note

It is estimated that the assessment of the sanitary sewer system will cost the Sewer Utility around \$30,000, accommodated through the existing Operating Budget. All costs associated with this assessment will be reimbursed in full. Therefore, there is no net cost to the Sewer Utility or to the City from this agreement.

The proposed indemnification language has been reviewed by the City's Risk Manager. The City's risk exposure is increased by this clause, but the exposure is covered by the City's insurance policies, subject to their terms and conditions.
