The Grantee shall locate the Project in a specific area, as approved by the City Parks Division.

The Grantee is responsible for locating all underground utility services in the construction area, i.e., said Grantee shall contact Diggers Hotline prior to any excavation or construction activities.

Any decorative plantings within the Project area shall conform to the Parks Division planting guidelines regarding site clearance and height restrictions for the vision corners.

The Grantee shall agree that the City shall not be held responsible for any damage to the Project and landscaping that may be caused by the City, its employees, contractors, or others.

The City may remove the Project if not properly maintained, including applicable vehicular vision clearances, by giving the Association sixty (60) days written notice prior to removal.

Transportation purposes include, without limitation because of enumeration, public alleys, streets, highways, bike paths, sidewalks, and facilities for the development, improvement and use of public mass transportation systems.
