### **Fiscal Note**

For the average residential customer of the Sewer Utility, the rate increase is projected at approximately 3.1%, which would result in an annual increase in charges of about \$9.85.

Average residential customers of the Stormwater Utility can anticipate a rate increase of about 2.3%, or \$2.15 more annually.

Average residential customers paying the Landfill Remediation Fee can anticipate a rate increase of about 62.5%, or about \$3.00 more annually.

Overall, the average residential customer's annual bill is projected to increase about 3.6% or \$15.00.

Revenues and expenses consistent with these charges have been built into the 2018 Operating Budgets of the Sewer Utility, the Stormwater Utility and the Landfill Remediation Fund, although some levy-neutral budget adjustments will need to be made (detailed out in the attached pdf). No additional appropriation is required.
