Fiscal Note

The proposed resolution accepts a donated modular building which will be used to provide a shower and restroom facility for use by those experiencing unsheltered homelessness. The donor has indicated their cost for the building is \$115,781. Engineering will approach a contractor to donate their services to relocate and install the building on a city-owned parcel. If unable to secure a donation for these services the estimated cost for the relocation is \$40,000. Engineering staff will remodel the interior to provide showers and restrooms and an office for the operator. The estimated cost of remodeling is \$50,000. Total costs for the building could range from \$50,000 to \$90,000. Costs will be covered using ARPA funds allocated for establishing an encampment for unsheltered homeless individuals.

The Community Development Division is issuing an RFP for the operator with a contract cost estimate of \$750,000 - \$900,000. ARPA funds are anticipated to be the source of funding.
