Title

Informational Presentation by City of Madison Planning Division regarding West Area Plan Planning Process

Body

The Planning Division is completing a first draft of the West Area Plan - one of the first to be undertaken as part of our new Planning Framework. Our team has been working in coordination with the Parks Division on the parks and open space aspects of the plan. We would like to provide an update to the BPC on draft actions prior to finalizing a full draft of the plan for introduction at Council and referral to boards/committees/commissions.
