

University at University Bay

The westbound bus stop is causing problems because the many bus routes frequently stopping block traffic, causing it to back into the on ramp and obstruct the right turn lane. Routes C and J can skip this stop since they also stop at the nearby northbound stop, helping to reduce this problem. Routes E and R will continue to use this stop.

Currently, there are about 8 daily boardings on Routes C and J at Stop 2820, and 26 daily boardings on Routes C and J at Stop 2131.

Charter at Johnson

Bus stops in this area are spaced more closely together than Metro's bus stop spacing guidelines recommend. The bus stop on Charter at Johnson requires a special left turn exception for buses, which has raised operational concerns.

Currently, there are about 63 daily boardings at Stop 0490, and 135 daily boardings for these specific routes at Stop 0743.
